- **Key dates:**
 - Manuscripts due by: *1 April, 2020*
 - Notification to authors: *1 July, 2020*
 - Final versions due by: *1 September, 2020*

Special issue *in preparation for ABS 3* Journal*

- **"Evaluating and measuring the knowledge exchange performance of higher education institutions: international evidence of challenges and good practices"**
- *Guest Editors:*
 - Dr. Elvira Uyarra, University of Manchester
 - Dr. Federica Rossi, Birkbeck, University of London, UK
 - Dr. Chiara Marzocchi, University of Manchester
 - Dr. Fumi Kitagawa, University of Edinburgh

Panel discussion

“Challenges and opportunities for universities’ KE in a changing higher education landscape”

Mr Adrian **Day** (Consultant)

Dr Muthu **De Silva** (Senior Lecturer, Birkbeck, University of London)

Dr Rosa **Fernandez** (Lead Analyst – Local Industrial Strategies, Department for Business, Energy and Industrial Strategy)

Dr Tatiana **Fumasoli** (Senior Lecturer – UCL Institute of Education)

Ms Helen **Perkins** (Director, Society for Research in Higher Education)

Key questions for debate

- What are the main challenges and opportunities that universities are confronted with in performing their KE mission, particularly in the context of policy changes (e.g. the introduction of the KEF, the research impact agenda, the local industrial strategies) in an increasingly competitive and financially constrained environment
- What actions should universities take?
- What should policy do to support universities in their KE efforts? What have been the major strengths and weaknesses of current policy?
