

# SRHE Annual International Research Conference 2021

## Virtual Poster Session User Guide

For poster sessions at the SRHE conference, we will be using [virtualpostersession.org](https://virtualpostersession.org): please [click here](#) to view the 2021 SRHE Virtual Posters. Please check this page from Monday 6<sup>th</sup> December onwards to scroll through all the available virtual posters.

**Poster sessions are scheduled for Tuesday 7<sup>th</sup> December (9-10am UK time) and Thursday 9<sup>th</sup> December (5-6:30pm UK).** During these times, all poster presenters are invited to be available for live discussion on Zoom with conference attendees. The Zoom link will be provided via the interactive programme and will also be e-mailed to all delegates the day before each session takes place.

- On Virtual Poster Session ([here](#)) you will see a small preview of the poster, the title of the poster, and the presenter's information. You will be able to **view each presenter's poster** by clicking on the preview image of that poster. From there, you can zoom in to read the poster.
- To chat with the presenter, you can click the '**chat with presenter**' button during the scheduled poster session times. This will take you to a Zoom room with the presenters and other interested parties who are already in that Zoom session, or who join after you.
- Alternatively, you can use the '**join the discussion**' button. This allows you to post comments and questions without joining the Zoom. It is worth noting that it is up to the presenter to respond to these questions, and they may choose to do so at a different time or date than the scheduled poster sessions.

Video guides are available at <https://virtualpostersession.org/>.
